PORTFOLIO

Your dreams,
Our expertise.

Our Story

For over two decades, our founders have been revolutionizing the furniture and design industries by creating innovative solutions for our clients based all over the globe.

With a fresh perspective that lives at the *intersection of elegance, fashion and high-end design*, our principals have developed a technique through which each client's personal style and space guide a *curated assortment of key pieces and accents*, combined to best flatter each home, office or a public space.

Art meets design with our approach to curating your living space, driven largely by our desire to deliver not only a look but a feeling of belonging and pride to our clients.

Latest designs & iconic pieces

A modern dining room with a wooden table, chairs, and a green cabinet. The room features a large window on the left, a green cabinet with multiple drawers, and a bookshelf in the background. A large, dark, arched pendant light hangs over the table. The floor is dark, and a large, textured rug is under the table. A small, light-colored stool is in the foreground. A dark grey banner with the text 'mdf italia' is overlaid on the right side of the image.
